Healthy Hearing is Honored in 23rd Annual Digital Health Awards® Fall 2021 Session

HealthyHearing.com was selected as a triple winner in 23rd annual *Digital Health Awards*® program. This competition — held each spring and fall — recognizes the world’s best digital health resources.

Healthy Hearing received three awards: a silver award for an article on cognitive decline and hearing loss, a merit award for a column on musicians with tinnitus, and a bronze award in the directory/ratings/guides category for their consumer-reviewed directory of providers.

“We were delighted to participate in the 23rd annual Digital Health Awards competition, and honored to be selected as a winner,” said Healthy Hearing President Mandy Mroz, AuD. “Our winning entries were chosen from more than 500 entries judged by a panel of distinguished experts in digital health media. This is our seventh year in a row as a Digital Health Award winner.”

Celebrating their 20th anniversary this year, Healthy Hearing is the world’s largest directory of hearing care providers and a top source of hearing health content. In 2021, more than 8.25 million people have visited Healthy Hearing to learn more about hearing loss or book an appointment with a provider.

The Health Information Resource CenterSM (HIRC), organizer of the Digital Health Awards, is a national information clearinghouse for professionals who work in consumer health fields. Other well-known HIRC programs include the annual National Health Information AwardsSM (healthawards.com), which annually recognizes the nation’s best consumer health information (in non-digital formats).
